

Explore, Learn, Record

iNaturalist

“Outdoor Creation Experiences”

- Document the diversity of God’s Creation
- Contribute to “community science”
- Share your wildlife photos & get help identifying them
- Raise awareness for wildlife protection and stewardship

Submit your observations to this project!

Current Biodiversity Count

672
Observations »

229
Species »

What Information do I Record?

Who you are
You’ll need to make an iNaturalist account

iNaturalist.org

Where you saw it
Record both the coordinates of the encounter as well as their accuracy.

What you saw
Choose a group of organisms like **butterflies** or better yet a specific organism like the **Monarch butterfly**.

When you saw it
Record the date of your encounter, not the date you post it to iNaturalist

Evidence of what you saw
By including evidence like a **photo** or **sound**, the community can help add, improve, or confirm the identification of the organism
